INTRODUCTION

R. L. POLK & CO., publishers of the San Jose City Directory, as well as more than 700 other city, county, state and national directories, present to subscribers and the general public, this, the 1933 edition of the San Jose Directory, which also includes directories of Los Gatos, Santa Clara and Santa Clara County, together with a directory of the rural free delivery box holders on routes which are pivotal from the San Jose and Santa Clara Post Offices.

Confidence in the continued growth of San Jose's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting San Jose to the world.

The enviable place occupied by R. L. POLK & CO'S. directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the San Jose Directory will fulfill its mission as a source of authentic information pertaining to the community.

Population

The estimated population of San Jose is 81,585, based on the number of individuals' names in the alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory.

Seven Major Departments

The several essential departments are arranged in the following order:

THE BUYERS' GUIDE, pages 17 to 52, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of San Jose. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured... In an ambitious and progressive community like the San Jose and Santa Clara County district, the necessity of having this kind of information immediately available, is very great and, frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations for San Jose is included in pages 53 to 484. A similar list for Los Gatos is contained in pages 797 to 826; Santa Clara, pages 877 to 913, and Santa Clara County, pages 741 to 960.

THE DIRECTORY OF HOUSEHOLDERS, TENANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES, AND STREET AND AVENUE GUIDE for San Jose covers pages 485 to 644. In this section the names of the streets and avenues are arranged in alphabetical order and showing the intersecting streets; the residences and business houses are ar-

INTRODUCTION—Continued

ranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers. Home property ownership is indicated by the character (o), placed immediately after the name of the householder. A similar guide for Los Gatos is contained in pages 829 to 839; and for Santa Clara in pages 915 to 928.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 645 to 739. This department lists the various manufacturing, mercantile and professional interests of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE SANTA CLARA COUNTY DIRECTORY, including the small towns of the county, arranged in alphabetical order, covers pages 741 to 960.

THE RURAL ROUTES DIRECTORY for San Jose, pages 961 to 978, includes the box holders on the rural routes served by the San Jose Post Office.

THE NUMERICAL TELEPHONE DIRECTORY for San Jose is given in pages 979 to 1052; Los Gatos, pages 1052 to 1058, and Santa Clara, pages 1058 to 1063.

Community Publicity

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements for San Jose and vicinity, for business men, everywhere, realize that the city directory represents a community as it really is.

The San Jose Directory Library

Through the courtesy of the publishers of the San Jose City Directory, a Directory Library is maintained in the offices of the San Jose Chamber of Commerce, for free reference by the general public. This is one of the 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

SAN JOSE STATISTICAL REVIEW

Name of City—San Jose, California.

Slogan or sub-phrase—"The Garden City."

Form of Government—City Manager.

Population—82,500.

Area—12 square miles within city limits; 20 miles city as a whole.

Altitude—100 feet.

Assessed valuation—\$49,083,808.00, with \$5.78 per \$100.00 tax.

White population is 99%.

Colored population is less than 1%.

Native born population is 80% of whole population.

Predominating nationalities in city are Italian, German, Irish, English, Canadians, of the 20,000 foreign born or of foreign parents.

Parks number 11 with 725 acres, valued at \$694,215.00.

City's bonded debt is \$1,024,425. Schools indebtedness is \$2,167,879.

Financial—4 banks, with total saving and commercial deposits of \$33,758,550 (1931), and clearings of \$132,051,816 (1931) annually. 7 building and loan associations, \$58,020,677 in resources, January 1, 1932.

Post Office receipts—\$408,046 (1931).

Telephones in service—21,752 (1931).

Church buildings—46.

Building and Construction—Value of building permits \$1,766,660 (1931).

Number of homes—19,750, with about 75% owned.

Industry—Number of establishments 394, employing 12,000 men and 8,000 women, paying wages \$13,132,000 annually, and having products valued at \$80,000,000 annually.

Trade—Territory (Retail) serves 269,712 people within the trading area covering a radius of 40 miles—4 counties.

Hotels—There are 4 first-class hotels, with total of 705 rooms.

City served by two railroads.

Amusements—Largest theatre or auditorium seats 2000 people. There are 8 theatres, with at total seating capacity of 9,300 people.

Education—Number of schools 29, including 1 high, 4 junior high schools. There are also 8 parochial and diocesan schools. Number of pupils in public schools 20,000. Value of all school property, public and private, approximately \$9,000,000.

There are 257,000 volumes in the libraries of the city.

City Statistics—Total street mileage 180, with 136 miles paved. Miles of sewers, 165; electric street railway, 41. Capacity of water works (private), 25,000,000 gallons; storage of 280,000,000 gallons. Fire department employs 72 men with following equipment: 3 autos, 4 engines, 7 hose and chemical wagons, 1 hook and ladder truck, in 8 station houses. Police department has 45 men with 1 station.

SAN JOSE FACTS AND HISTORY

Supplied by the
SAN JOSE CHAMBER OF COMMERCE

SAN JOSE

The Central City of the Famous Santa Clara Valley

SAN JOSE, California, the oldest pueblo in California, founded November 29, 1777, now a modern city of 82,500 population, is the county seat of Santa Clara County. It is located 50 miles southerly from San Francisco, 42 miles from Oakland, and 9 miles from the southern arm of San Francisco Bay, and it occupies the position of central city of the greatest fruit canning and dried fruit packing center in the world. It is one of the four largest cities in the Bay district, and as it lies within the San Francisco metropolitan area, it shares with those cities the opportunities for expansion and development that exist in the Bay region, in addition to its own special local advantages.

San Jose has been built up from the native resources of Santa Clara Valley, practically all of which is comprised within the county lines. There are in the county 1305 square miles, 835,200 acres, of which 135,000 acres are in orchards, vineyards and berries; in canning and other vegetables, 20,000 acres; in cereals, 50,000 acres; in seed farms, 2000 acres; poultry, beef cattle, thoroughbred cattle, thoroughbred horses, dairy and general farms are numerous; there are many fruit and flower nurseries in the valley; for half a century cheese has been an important product of the Gilroy section; and in minerals, vast quantities of manganese and magnesite are exported; a practically inexhaustible deposit of fertilizing material several miles south of San Jose is being worked commercially on a large scale, and the county has an abundant supply of brick clay and of suitable quarries for road construction. The mountain range on the west side of the valley is well timbered with second-growth redwood, oak, madrono and other kinds of trees, and there are many oaks and pines in the Mt. Hamilton range on the east. The valley is 60 miles in length and has an average width of 20 miles.

Santa Clara Valley has an equable climate, free from extremes of cold or heat; The normal mean annual temperature at San Jose, covering a period of 14 years, as officially reported by G. F. DonEschen, in charge of local U. S. Weather Bureau, was 57.3 degrees; mean maximum, 68.1; mean minimum, 45.1; precipitation, 16.79 inches; relative humidity, 58; wind (velocity in miles per hour), 5.7; sunshine (per cent of possible duration), 72; clear, 220 days; partly cloudy, 76 days; cloudy with rain (of .01 inch or more), 63 days; a maximum temperature, 90 degrees or above, 12 days; minimum temperature, 32 or below, 17 days. The number of days with a maximum temperature above 90 degrees are very few, and there are also a very few with minimum below 32. The equable climate is explained by the modifying influences during the summer months of the valley's eastern range, which protects it from the heat of the interior, and of the Pacific Ocean, which lies only a short distance to the west, the cooling breezes of which, modified by the intervention of the Santa Cruz range, prevail throughout the valley during that season of the year; while the cold of winter is greatly tempered

by the San Francisco Bay, which reaches into the northern portion of the valley, and the Santa Cruz Mountains, standing as a barrier to the ocean fogs and high winds.

Horticulture is the leading industry in the valley, and it is doubtful if there is a section of similar area in all the world that produces so many kinds or so vast a quantity of fruits. The normal prune crop alone is 140,000,000 pounds dried, while the 19,000 acres in apricots, the 7000 in pears, 1500 in peaches, 3500 in cherries, and several thousands in plums, apples and other fruits, enormously swell the fruit production; of grapes there are 7000 acres, and of walnuts nearly 4500 acres. The valley produces about 33 per cent of the State's prune crop and about 50 per cent of the State's dried apricot production.

Of the 33 fruit canneries in Santa Clara County 18 are located in and near San Jose, and of the 21 dried fruit packing houses, 13 are in this city. During the peak of the season from 15,000 to 20,000 men and women are engaged in canneries and packing houses and in the many drying grounds. The county pack of canned fruits, berries and vegetables averages annually more than 9,000,000 cases of two dozen quart cans per case, or a total of 216,000,000 cans, and at 20 tons per carload approximately 9000 cars are required to load the pack. One can company in this city manufactures and distributes 250,000,000 cans annually, and a large quantity is manufactured by a second local company. Another local fruit product is jams, jellies and fruit juices, which find markets in all parts of the United States. The largest manufactories in the United States of orchard and fruit handling machinery, irrigation pumps and engines, orchard sprayers and cannery equipment are located in San Jose. In city and county there are more than 700 factories, large and small, of numerous kinds.

San Jose is served by the Southern Pacific and the Western Pacific railroads; an average of 69 Southern Pacific passenger trains run daily each way between San Jose and San Francisco; auto stages and trucks operate scheduled lines from San Jose to all parts of the State, and Alviso and South Port provide water transportation to Bay points for many products.

San Jose has been growing steadily for several years past, in population and in business. It has overgrown its official municipal lines on all sides; its manufactural and commercial interests are rapidly expanding, and several new residential subdivisions contiguous to the city are being built up with attractive homes. Building permits since 1920, within the official lines only, upto January 1, 1932, were \$37,297,395. Permits up to July 1, 1932, or the first six months of 1932, were \$708,775. Residences and business construction outside these lines but within the city as a whole have kept pace with inside construction.

Bank clearings in 1920 were \$116,995,085; in 1928 they were \$174,363,539; in 1931 they were \$132,051,816. Bank debits increased from \$308,576,254 in 1925 to \$361,203,370 in 1928; in 1929, \$386,438,627, and in 1931, \$287,676,310.

The facilities for education provided by San Jose and Santa Clara County are prominent factors in inviting students and families here from all parts of the country. In this city are the State Teachers and Junior Colleges, a senior high school, and evening high school, four junior high schools, 13 grammar schools, two secretarial schools, and several Catholic schools; at Santa Clara is the University of Santa Clara, and at Palo Alto is Stanford University; there are three military schools in the county, and several private schools; nine high schools, 86 grammar schools, several kindergartens and a number of evening schools. Lick Observatory, at the summit of Mt. Hamilton, near San Jose, is a department of the University of California. San Jose has a fine public library; a county library is located in this city, and there is here also one of the best law libraries on the Pacific Coast.

No part of California offers more attractions for the tourist than Santa Clara Valley. The State highway, coast route, from San Francisco to Los Angeles traverses the entire length of the valley, through San-Jose; and another paved highway connects San Jose with the route south through the San Joaquin Valley and with the route north and east through Stockton and Sacramento; the State highway connects Oakland and San Jose, and another, one of the most picturesque drives in the State, places this city within an hour and a half of Santa Cruz, Capitola and other coast resorts. From San Jose paved roads radiate in all directions throughout the valley, foothills, mountains and forests. The State Redwood Park of 9,330 acres lies just over the western summit, in Santa Cruz County; and at the highest point in the Mt. Hamilton range, east of San Jose, is the famous Lick Observatory, reached by a winding road through ever changing scenery. Alum Rock Park, with its many mineral springs, natatorium and plunge, seven miles from the city, in the eastern foothills, is reached both by electric line and a fine paved road. The San Jose Country Club has a club house and attractive golf course in the same foothills, overlooking the valley; the Hill View Golf Club has an attractive club house at its golf course, located a few miles from this city toward Evergreen, and there are several other golf courses in the county. San Jose is provided with three first-class hotels, and several others, small but excellent. The city has eight theatres. All church denominations, benevolent societies, civic, service and women's clubs, are represented here, and the city is pre-eminently one of attractive homes.

Because of its equable climate, scenic attractions, varied fruit productions, and many other desirable features, Santa Clara Valley is known as "The Valley of Heart's Delight." To the home seeker and to the investor it offers pleasant living and satisfactory returns, and to the tourist delightful trips and enjoyable experiences that will linger long in memory.

Subscribe for Your Own Home Morning Paper

IT is full of the best home and telegraphic news. It is free from sensational, objectionable matter. It is clean, wholesome and adapted to every member of the self-respecting family. You get it at the time of day when it is most acceptable—when preparing for the day's duties and the day's purchases. It has Aunt Polly's page for the children; sports for the young people; social doings for the ladies; financial matter for the men and shopping news from all the stores for all.

The City Directory

places the city on the map and is its only representative to the world beyond its own gates.

It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

The men who direct the affairs of progressive and up-to-date business institutions, recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.

Advertising Service

ADVERTISING is the business of telling the greatest number of persons the most interesting facts about any given subject at the lowest per capita cost.

That is all there is to the so-called “psychology of selling.”

R. L. Polk & Co. of California is prepared to analyze any business problem and to recommend the most economical method of marketing the product or service that is for sale.

This service is free.

**Directory of Householders, Occupants of
Office Buildings and Other
Business Places
Including a Complete
Street and Avenue Guide
1933**

COPYRIGHT, 1933, BY R. L. POLK & CO. OF CALIFORNIA

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled following the Named Streets.
The symbol (o) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.
